### What Makes a Great Place?

Great Places offer better choices for where and how people live, work, and play. They are enjoyable, safe, sustainable, and desirable. They are places where people want to be, not only to visit, but to live, work and/or play every day. Not only do they build a sense of community, but Great Places also give their communities an economic boost by helping to attract and retain residents and businesses.

Pennsylvania’s Great Streets and Great Greenways/Trails are defined by many criteria, including functionality, accessibility, connectivity, community involvement, economic opportunities, forward thinking planning, and others. Successfully designated Great Streets and Greenways/Trails will be recognized by APA PA through a number of activities, such as:

- News and social media releases statewide and locally about the designations
- Recognition on the APA PA website
- Coordinated attendance of APA PA representatives at local designation ceremonies in communities choosing to hold such events
- Presentation of a Great Places Certificate and Window Clings
- Recognition at the APA PA Annual Conference
